Attached 1 page.

I have also sent a paper copy of this today. I still have not received the letter you sent on 10/30/05. In the future, I'd appreciate it if you could fax me a copies at (501)635-4965.

If possible, please fax back a confirmation that this fax was received correctly.

1

In The US Patent and TM Office

Application Number: : 10/662,870

Filing Date: : 09/15/03

Applicant : Neal T. Saiki

Application Title : Bicycle Rear Suspension System

Examiner : Tony Winner

Art Unit : 3611

Mailed November 15, 2005

Faxed November 15 2005

Scotts Valley, CA

Commissioner of Patents and Trademarks  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Office Letter mailed 10/30/05 and our phone conversation on 11/14/05 I'd like to clarify that all claims 1-10 read upon the species shown in figure 9. I had attempted to make all of the claims as general as possible with the intent of narrowing their scope if required. Therefor I'd like to continue the examination and with all claims considered.

This invention is being manufactured by a major bicycle manufacturer and will be available in early 2006. The suspension system has been reviewed extensively by members of the bicycle manufacturing community at the 2005 Interbike Bicycle Trade Show. Everyone agrees that this is a novel and valuable advancement in suspension technology.

Very respectfully,

Neal Saiki
